

## **We are looking for your story told by yourself.**

Are you a refugee or did you have to leave your country?

Do you want to collaborate to make others know what is happening?

Write to us and we will make your story be read by other people, from other countries in Europe and America.

It's interesting to do it because other countries they don't know what is really happening, they don't realize that you are people trying to normalize your difficult life.

We are a group of volunteers that we are collecting stories in first person style and we want to make them known at other countries in Europe and America to make people realize what is really happening and they could identify with you, changing their way of thinking and the policy that is stopping to open the borders because of fear.

You can read stories told by other people on this web site:

**[www.journalistsagainsttheborders.com](http://www.journalistsagainsttheborders.com)**

You can write your story and send it to:

**E-mail: [info@journalistsagainsttheborders.com](mailto:info@journalistsagainsttheborders.com), or WhatsApp +30 6931399200**

Write in your language, we will take care of translating it and publish it on the media (newspapers, magazines,...) in other countries and/or at our web site.

If you want your name to be shown as author of the story is good; if you don't want your name to be shown because your family could be in danger in your country give us a pseudonym, no problem.

If you don't have any phone or computer to write it do it on paper, look for a friend who has a phone with internet and send us a picture by WhatsApp or email.

If you don't have any problem to show your image you can send us a picture of you to add it to your story, if you don't want to have a picture it's not a problem, send us your story anyway.

Many thanks
